

*the great leap forward*

MINI-K

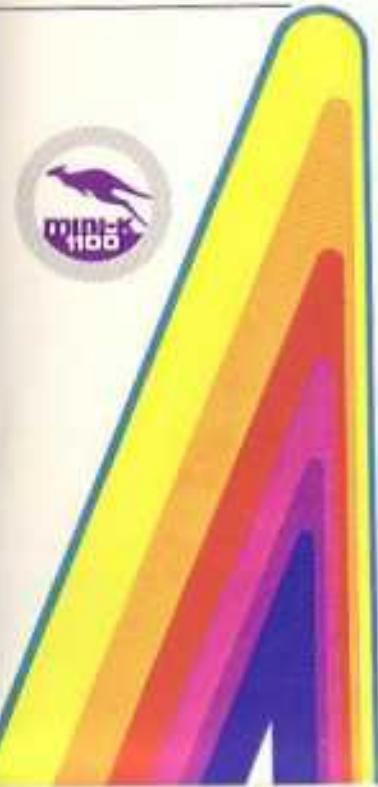

# LEAP AWAY WITH MORRIS MINI K

Mini K is your car. It's your holiday car. It's your travel car. Your everyday and weekend car. And the Mini K has more room inside than any other car of its size. That's because Mini K's East-West engine leaves 80% of the car free for passenger comfort.

Mini K—the great leap forward.

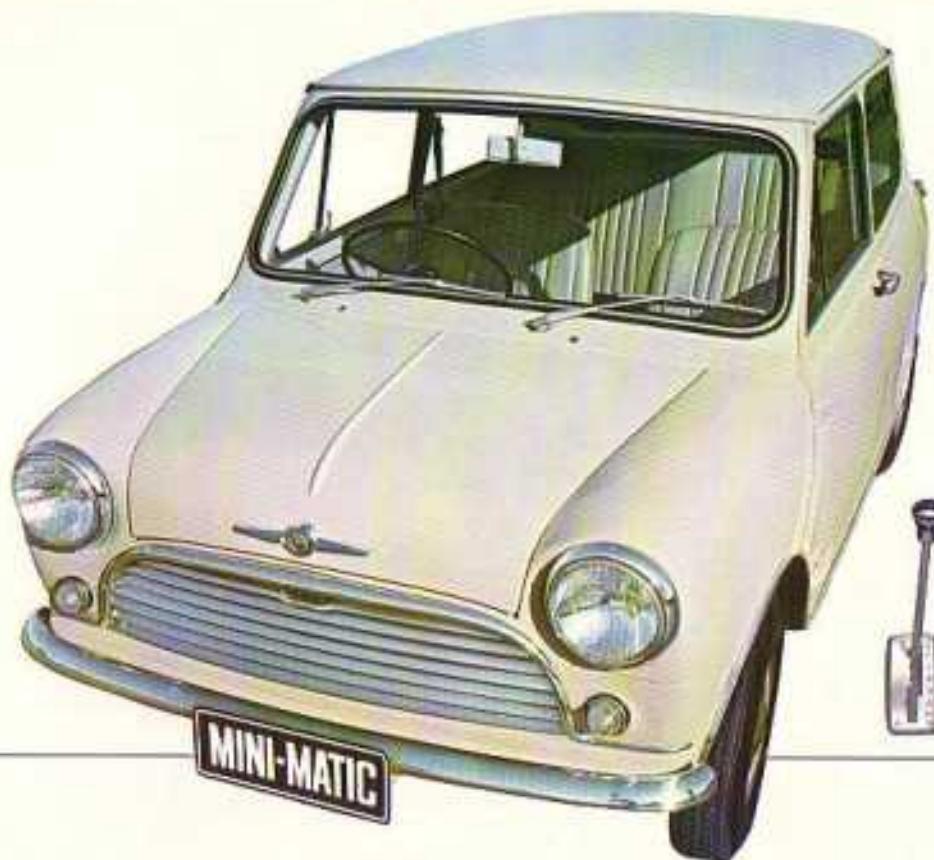

# NO OTHER CAR IN ITS CLASS CAN COMPARE

1. DASH: The new Mini K dashboard is for people who drive. Its flight-cockpit instrument grouping means easier and safer driving. It's the same dashboard that helped make the Cooper "S" famous.
2. STEERING: The Mini K steering wheel is completely new. Its dished design provides extra driving comfort and safety. And Mini's rack-and-pinion steering gives positive, light control.
3. SYNCRO: The new Mini K has synchromesh on all four gears, including first. You change like a champion, no matter how steep the hill, or how thick the traffic. . . . a real race car for the gym! . . . and parking's a breeze.
4. HYDROLASTIC SUSPENSION: The new Mini K gives you the smoothest ride of your life with its exclusive Hydrolastic Suspension. You float over bumps, potholes and rough roads. It makes city driving a pleasure. And you can say 'goodbye' to springs and shock absorbers because the Mini K doesn't need them. From any way you look at the Mini K you come up with the right answers. The price is right. Driving performance is right. The long-lasting linked chassis finish is right. The amount of "inside" room compared with other small cars is right. The B.M.C. dealer service is right. The Mini K is the right car for you. It's a fun car. . . . it's an exciting car. It's your car.

# AUTOMATIC AND MANUAL IN ONE INCREDIBLE CAR THE MINI-MATIC

The Mini-Matic is automatic. And manual. All in one. So you can switch around as often as you wish. If you feel like driving manually, you'll find the gear changing the easiest to manage and the fastest yet.

And automatic driving is a joy. The automatic box has 4 speeds instead of 2 or 3. This means no loss in power or performance.

The interior is strictly Mini Deluxe. And more. The incredible Mini-Matic is way ahead of every other car in its price range.

# THE MORRIS COOPER'S

BIG ON POWER, BIG ON PERFORMANCE—the fabulous Cooper 'S' has broken track records the world over. Accelerates from 0-60 in 8.2 seconds. Does the standing quarter in 18.4. And its top speed is nearly 100 m.p.h. The Cooper 'S' has full independent "flat-on-Road" suspension, and the 7.2" disc brakes on the front wheels are servo-assisted for fade-free braking.

INTERIOR—Top-quality. Seats are trimmed in leather-type vinyl, and deeply padded in Poly-foam for extra comfort. Then's deep pile carpeting throughout and 3-point safety belts are fitted to the front seats.

Cooper 'S' the most powerful Mini of them all.

# Big New 1100 Engine

brings you effortless bounding power  
never-tiring endurance

The new Mini K has a big new East-West 1100cc engine. Mini K is big on performance in city traffic, or on long trips. Mini K gives you effortless power, power you can enjoy, power you can rely on. No wasted revs or stress, just a bounding never-tiring energy. Mini K's big new 1100cc engine means its basic horsepower has been increased by 25% from 40 to 50 bhp and you still get up to 60 mpg.

# THE GREAT LEAP FORWARD IN QUALITY AND ECONOMY

**1. QUALITY INTERIOR.** The seats are upholstered with quality foam vinyl and moulded foam rubber cushions. Heavy duty rubber floor mats are colour-tinted to complement the luxurious styling. Even the sun visors are foam-filled for safety.

Doors have internal push-pull door locks; rubber stop guards, stainless steel window surrounds and a courtesy light is activated by either door. Then are deep pockets alongside the whole length of the interior, and kicking plates on each door. The Mini interior looks good, and reflects the quality of B.M.C. craftsmanship.

**2. ECONOMY.** The new powerful 1100cc East-West engine gives you incredible performance at up to 80 mpg. No other car in the Mini K class can compare for economy. It is the least expensive car to run and maintain.

**3. DEALER SERVICE.** With almost 400 B.M.C. Dealer outlets throughout Australia, the service you'll receive on your Mini K is second to none. There's no waiting for spare parts to be imported from overseas: they're all available now, at your dealers... and all are competitively priced.

**4. RESALE VALUE.** The popularity of the Mini as a new car is matched only by its demand on the used car market. Since its introduction, over 100,000 new Minis have been sold in Australia. It tops the fan car range in resale value... Mini K is more than the best medium-engined car available; it means more money later on.

**5. RUSTPROOFING.** Your Mini K goes through the most thorough and effective rustproofing process in the world. It's called 'Total Dip' and it's another quality feature from B.M.C.

## FOR THE TECHNICALLY MINDED

specifications 1990. New York and London.

Journal of Health Politics, Policy and Law, Vol. 33, No. 4, December 2008  
DOI 10.1215/03616878-33-4 © 2008 by the Southern Political Science Association

**ASPERGILLUS** *versicolor*— $0.5$  m. N. E. of Hwy. 9—Casper, T.  
**CYANIDIUM** *Reproduction*, microscopically, conidial system with trichocarpous perithecium—Casper, S. of town, old brick house.  
**MARSHMALLOW** *Trifoliate root*—Aromatic rhizome and rhizome with rhizocarpous root system—Casper.

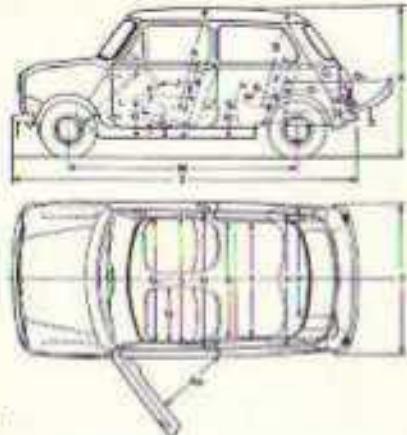

**PROBLEMS:** The patient reported single-color day, double-color night halos (e.g., with halogenic illumination). Four visual acuity tests, double near acuity tests, all forward genetic testing, fundus photograph, fundal fluorescein angiogram, and vitreous humor aspiration were normal. Fundus examination showed optic disc edema with peripapillary hemorrhage. Visual function was measured by optokinetic nystagmus testing. Eye movement by optokinetic nystagmus could not be tested (see above).

**AUTOMATIC TRANSMISSION:** Four-speed automatic with reverse; standard. Standard transmission 3.76:1 including overdrive gear ratio; optional. Overdrive by manual. Four-speed manual including 3.76 forward gears and 1.61倒档 ratio; optional. Drive shafts are mounted in a transverse center carrier; rear wheel drive.

**BEST AND STRONGEST ADHESIVE:** The nano-dispersions fully encapsulate the rock fiber, form hybridized and very cohesive, fully bonded interfaces. Deep down this superior bond withstands all hydrocarbons and water exposure.

**SUSPENSION:** Indications: Joint synovitis with Hyaluronan® oligosaccharide-containing fluid in knee, elbow and lower back joints plus attached to joint beds by local joints. Indications: Low suspension or radiotherapy sites with Hyaluronan® oligosaccharides and anterior synovial fluid attachment antigen with sacroiliitis.
